

DM Batch 2

B.E / B.Tech. PRACTICAL END SEMESTER EXAMINATIONS

Sixth Semester

CCW332 – DIGITAL MARKETING LABORATORY

(Regulations 2021) - SET 2

Time: 3 Hours | Max. Marks: 100

MARK ALLOCATION TABLE

Aim	Procedure	Output/Diagram	Viva-Voce	Record	Total
10	40	30	10	10	100

1. Creating YouTube Channel for Marketing

Aim: To create and optimize a YouTube channel for digital marketing purposes.

Procedure:

1. Sign in to YouTube with a Google Account.
2. Go to settings and click "Create a new channel".
3. Upload brand assets: Profile Picture, Banner Image, and Video Watermark.
4. Add basic info: Channel description, contact email, and social media links.
5. Upload a marketing video and optimize its title, tags, and description for SEO.

Diagram to Draw (Channel UI Layout):

Draw a rectangle for a screen:

- Top horizontal box: "Channel Banner / Cover Art"
- Circle overlapping bottom-left of banner: "Profile Logo"
- Text next to logo: "Brand Name" & "Subscribe Button"
- Below: A grid of 3 rectangles labeled "Video Thumbnails".

Output: A fully optimized YouTube channel ready for video marketing.

Result: YouTube channel created successfully.

2. Create an account on Google AdWords

Aim: To create and configure a new Google AdWords (Google Ads) account.

Procedure:

1. Create an email address with a Google account.
2. Go to `https://ads.google.com/home/` and click "Get Started".
3. Skip the smart campaign setup by clicking "Switch to Expert Mode".
4. Configure standard settings: Set **Time zone** and **Currency**.
5. Configure **Payment options** (Billing details) and submit to reach the dashboard.

Diagram to Draw (Flowchart):

```
[Create Google Email] --> [Go to Google Ads] --> [Switch to Expert Mode] -  
-> [Set Timezone & Currency] --> [Configure Payment Options]
```

Output: An active Google Ads account ready for campaign creation.

Result: Google AdWords account created successfully.

3. Create a New Campaign in Google AdWords

Aim: To set up a new campaign with targeting, budget, and bidding configurations.

Procedure:

1. Click "New Campaign" and select the **Campaign name and networks** (Search/Display).
2. Configure **Language and Location targeting** (e.g., English, India).
3. Set the **Daily budget** (e.g., \$10/day) and **Maximum bid** limit.
4. Define **Ad rotation** (Optimize for best performing ads) and delivery options.
5. Set the **Start and end date**, and configure **Ad scheduling preferences** (e.g., Mon-Fri, 9 AM-5 PM).

Diagram to Draw (Settings Dashboard):

Draw a simple form with boxes:

- [Campaign Name: ____]
- [Network: (o) Search () Display]
- [Location: ____] [Budget: \$____ /day]
- [Bidding Strategy: Maximize Clicks [v]]

Output: A structured Search/Display campaign ready to run ads.

Result: Google Ads campaign configured successfully.

4. Creating Promotional Banner through Canva

Aim: To design a digital promotional banner using Canva.

Procedure:

1. Go to Canva.com and click "Create a design" -> "Banner".
2. Choose a template or start from scratch with brand colors.
3. Add a company logo, bold promotional text (e.g., "50% OFF"), and product images.
4. Click Share -> Download as a PNG or JPG file.

Diagram to Draw (Banner Sketch):

Draw a wide rectangular banner:

- Top Left: "Flash Sale!"
- Middle Left: "50% OFF ON ALL ITEMS" in large bold letters.
- Bottom Left: A box for the "Shop Now" button.
- Right Side: Draw a sketch of a product (e.g., a laptop or shoe).

Output: A high-quality digital promotional banner graphic.

Result: Promotional banner created successfully.

5. Social Media for Political Advertising

Aim: To discuss the positive/negative impacts and ethics of social media political ads.

Procedure:

1. **Positive Impacts:** High reach, cost-effective, allows direct communication with youth.
2. **Negative Impacts:** Spread of fake news, echo chambers, and extreme polarization.
3. **Ethical Implications:** Discuss data privacy breaches (e.g., Cambridge Analytica) and micro-targeting voters without consent.

Diagram to Draw (Mind Map):

Draw a center circle labeled "Political Social Media Ads". Draw 3 branches connecting to:

4. "Positives" -> (Reach, Cost).
5. "Negatives" -> (Fake News, Polarization).
6. "Ethics" -> (Data Privacy, Manipulation).

Output: A comprehensive discussion report.

Result: Impacts and ethical implications analyzed successfully.

6. Case Study: Insurance Company Lead Management

Aim: To analyze how an insurance company captures and manages leads.

Procedure:

1. **Lead Generation:** Collect customer details via online forms and social media ads.
2. **Lead Scoring:** Assign scores based on user interaction (e.g., clicking email links).
3. **Lead Nurturing:** Send automated, educational emails explaining insurance plans.

4. **Conversion:** Sales team calls high-scoring leads to close the policy.

Diagram to Draw (Sales Funnel):

Draw a large inverted triangle (Funnel) divided into 3 sections:

5. Top: **Awareness** (Ads, Website traffic).
6. Middle: **Consideration** (Emails, Lead Nurturing).
7. Bottom: **Decision** (Sales Call, Buying Policy).

Output: A structured case study on the CRM-based lead lifecycle.

Result: Lead management process discussed successfully.

7. Newsletter Analysis for Branding & Segmentation

Aim: To subscribe to a newsletter and analyze its branding and customer segmentation.

Procedure:

1. Subscribe to a popular business newsletter (e.g., HubSpot).
2. Analyze the header (logo placement, brand colors) for branding.
3. Analyze the body content for value and structure.
4. Identify the target audience (segmentation) based on the tone and offers.

Diagram to Draw (Newsletter Wireframe):

Draw a wireframe of an email:

- [Header Box]: Company Logo & Date.
- [Image Box]: Hero Image.
- [Text Box]: Main Content & Article snippet.
- [Button]: "Read More" (Call to Action).
- [Footer]: Social media icons & Unsubscribe link.

Output: A summary report detailing the brand identity and target audience.

Result: Newsletter successfully analyzed.

8. Predictive Analytics in Marketing Automation

Aim: To discuss how predictive analytics impacts marketing automation.

Procedure:

1. Collect historical customer data (past purchases, browsing history).
2. Apply Machine Learning algorithms to predict future buying behaviors.
3. Use these predictions in automation tools to trigger hyper-personalized emails.
4. Recommend specific products before the customer even searches for them.

Diagram to Draw (Flowchart):

[Historical Customer Data] --> [Machine Learning / Predictive Model] -->

[Marketing Automation Tool] --> [Trigger Personalized Email Campaign]

Output: A report highlighting increased ROI and reduced customer churn.

Result: The impact of predictive analytics discussed successfully.

9. Social Media for Political Advertising (Note: Duplicate in University Syllabus)

Aim: To discuss the positive/negative impacts and ethics of social media political ads.

Procedure:

1. **Positive Impacts:** High reach, cost-effective, allows direct communication with youth.
2. **Negative Impacts:** Spread of fake news, echo chambers, and extreme polarization.
3. **Ethical Implications:** Discuss data privacy breaches (e.g., Cambridge Analytica) and micro-targeting voters without consent.

Diagram to Draw: (Same as Ex 5. You can draw the Mind Map again or reference it).

Output: A comprehensive discussion report.

Result: Impacts and ethical implications analyzed successfully.

10. Facebook Promotion using Banners

Aim: To run a promotional campaign on Facebook using designed banners.

Procedure:

1. Open **Facebook Ads Manager**.
2. Click "Create" and select a campaign objective (e.g., Traffic).
3. Set the Daily Budget and define the Target Audience (Age, Location, Interests).
4. Upload the Canva banner, write primary text, add a destination URL, and click Publish.

Diagram to Draw (Hierarchy Chart):

Draw the structure of a Facebook Ad Account:

[Campaign (Sets the Objective: e.g., Traffic)]

| --> [Ad Set (Sets Audience, Location, and Budget)]

| --> [Ad (The actual Image/Banner and Text)]

Output: A live Facebook Ad campaign generating impressions and clicks.

Result: Facebook promotion launched successfully.
